

Goodwin University

Continuing Education

Develop the skills you need for the career you deserve.

Whether you're a professional looking to start a rewarding new career, an employee looking to advance in your field, or an employer looking for ways to help your team develop their skills, Continuing Education (CE) can help you and your organization achieve your goals.

Develop career-ready skills – no degree required!

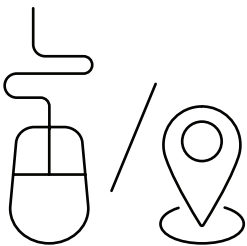

- Certification and licensing programs
- Workforce education and training
- Other non-degree programs

Our Continuing Education programs are made for students from diverse educational backgrounds. Classes are flexibly designed to fit your life, which is why many are offered 100% online, days, nights, and weekends.

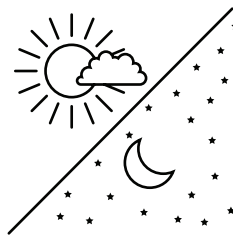

Continuing Education programs include:

- Advanced Manufacturing
- Allied Health
- Digital Marketing
- Information Technology (IT)
- Nursing
- Software Development
- UX-UI Design
- And more!
